

# Implementation of EED in Ukraine

Ministry of Regional Development,  
Construction, Housing and Communal  
Services of Ukraine

# Leadership of Decision Makers on a way to energy efficiency of Ukraine

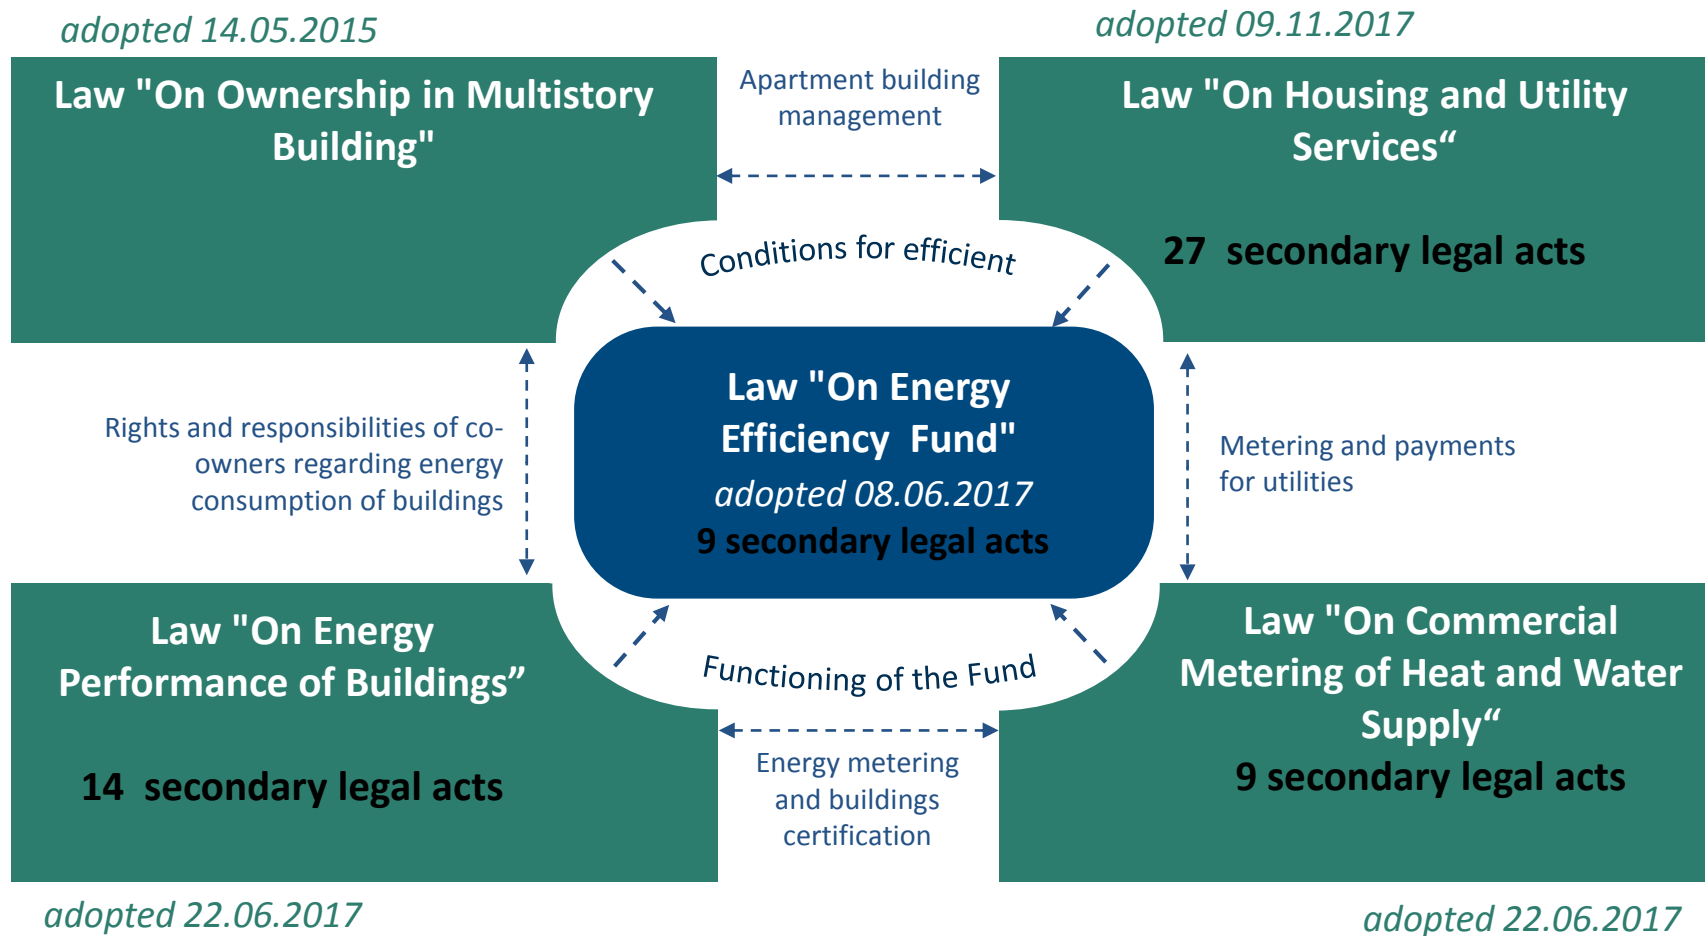

# Influential Stakeholders

Civil Society: e.g. NGOs and think tanks

International Financial Institution: Group WB, EBRD, EIB, NEFCO

Friends of Ukraine: e.g. EC, EnC, USAID, GIZ, SIDA...

# Implementation of key provisions of Directive 2012/27/EU

Art.3 Energy efficiency targets	Draft Law "On Energy Efficiency"
Art.4 Building renovation	Draft Law "On Energy Efficiency"
Art.5 Exemplary role of public bodies' buildings	Draft Law "On Energy Efficiency"
Art.6 Purchasing by public bodies	Draft Law "On Energy Efficiency"
Art.7 Energy efficiency obligation schemes	Draft Law "On Energy Efficiency"
Art.8 Energy audits and energy management systems	Draft Law "On Energy Efficiency"
Art.9 Metering 	Law "On commercial metering of heat and water supply"
Art. 10 Billing information 	Law "On commercial metering of heat and water supply"
Art. 11 Cost of access to metering and billing information 	Law "On commercial metering of heat and water supply"
Art. 12 Consumer information and empowering programme 	Law "On commercial metering of heat and water supply"
Art. 13 Penalties	Next steps
Art. 14 Promotion of efficiency in heating and cooling	Draft Law "On Energy Efficiency"

# Implementation of key provisions of Directive 2012/27/EU

REFORM  
support team

**Art. 15 Energy transformation, transmission and distribution**

Draft Law "On Energy Efficiency"

**Art. 16 Availability of qualification, accreditation and certification schemes**

Next steps

**Art. 17 Information and training**

Next steps

**Art. 18 Energy services** ✓

Law "On the Introduction of New Investment Opportunities in Large-Scale Energy Modernisation"

**Art. 19 Other measures to promote energy efficiency**

Draft Law "On Energy Efficiency"

**Art. 20 Energy Efficiency National Fund, Financing and Technical Support** ✓

Law "On Energy Efficiency Fund"

**Art. 21 Conversion factors**

Next steps

**Art. 22 Exercise of the delegation**

Next steps

**Art. 23 Review and monitoring of implementation**

**Art. 24 Online platform**

Next steps

**Art. 25 Committee procedure**

Next steps

**Art. 26 Amendments and repeals**

Next steps

# Structure of Draft Law "On Energy Efficiency"

## Energy Efficiency Targets

National Targets on EE

Renovation of public buildings

Provisions of public procurements

Eco-design

Efficiency of energy supply

Energy audit and energy management

Energy efficiency in transport sector

Smart meters

Energy services

## Means to achieve targets

National EE Action Plan

Building renovation strategy

Energy Efficiency Fund

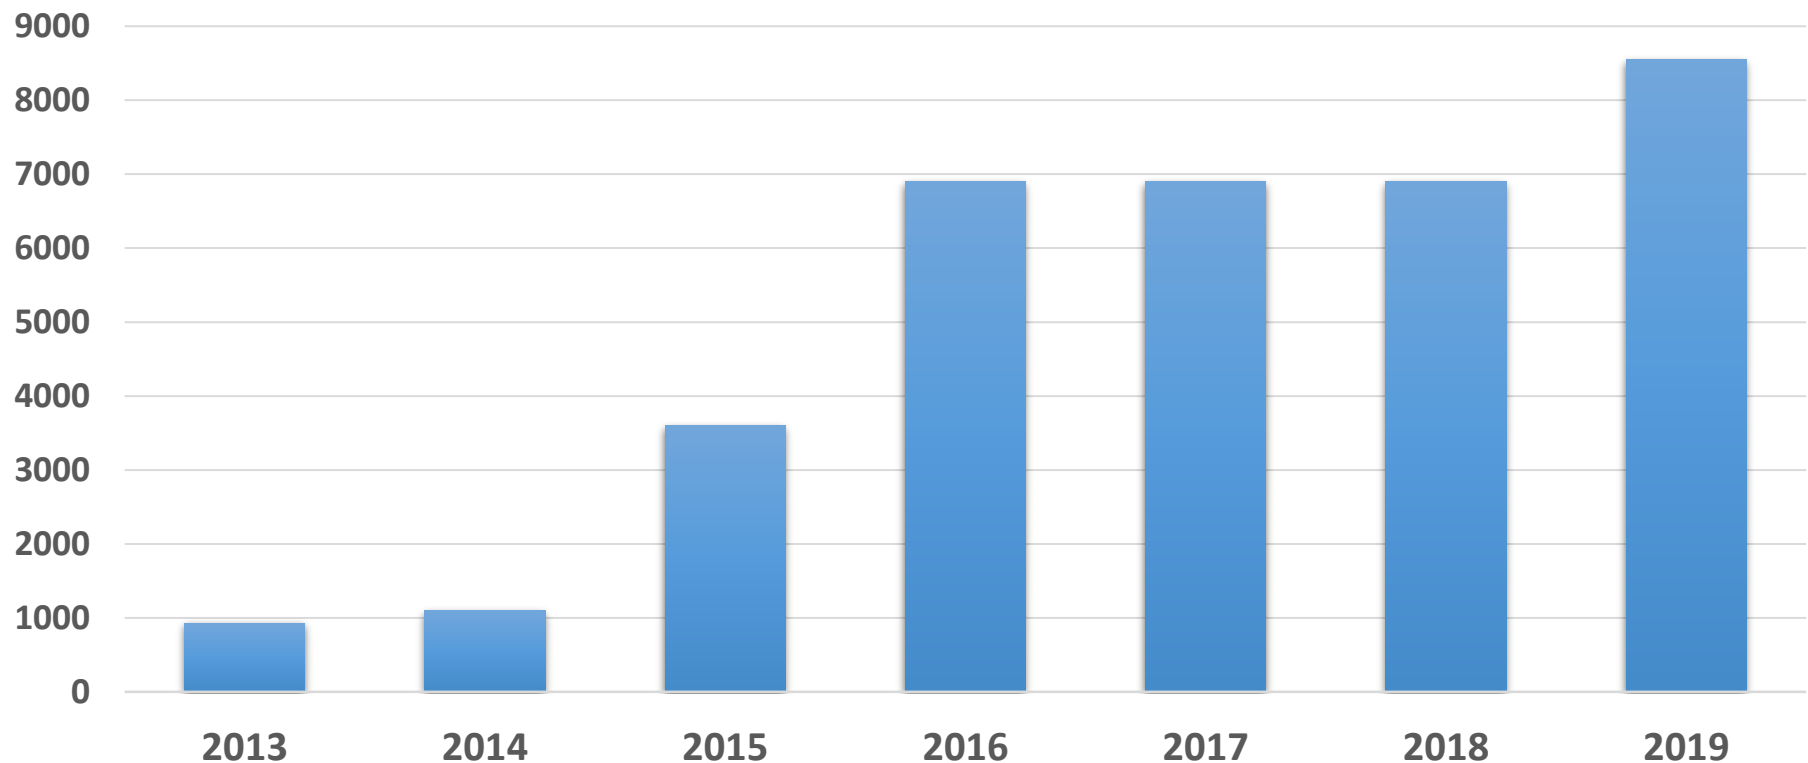

## Planning and financing EE measures

## Context:

One of the important principles of EED is economic efficiency and adequate measures. Considering Ukrainian contexts such as low prices for energy (natural gas) and low salary in counterweight of high prices for EE technology, it was very hard to provide any EE actions till 2015 when gas market reform has started. With the rising price of gas, we have more and more incentives for providing energy efficiency.

Natural gas price, UAH per 1000m<sup>3</sup>

# THANK YOU!
