

# The Norwegian Climate and Energy Fund and Enova SF

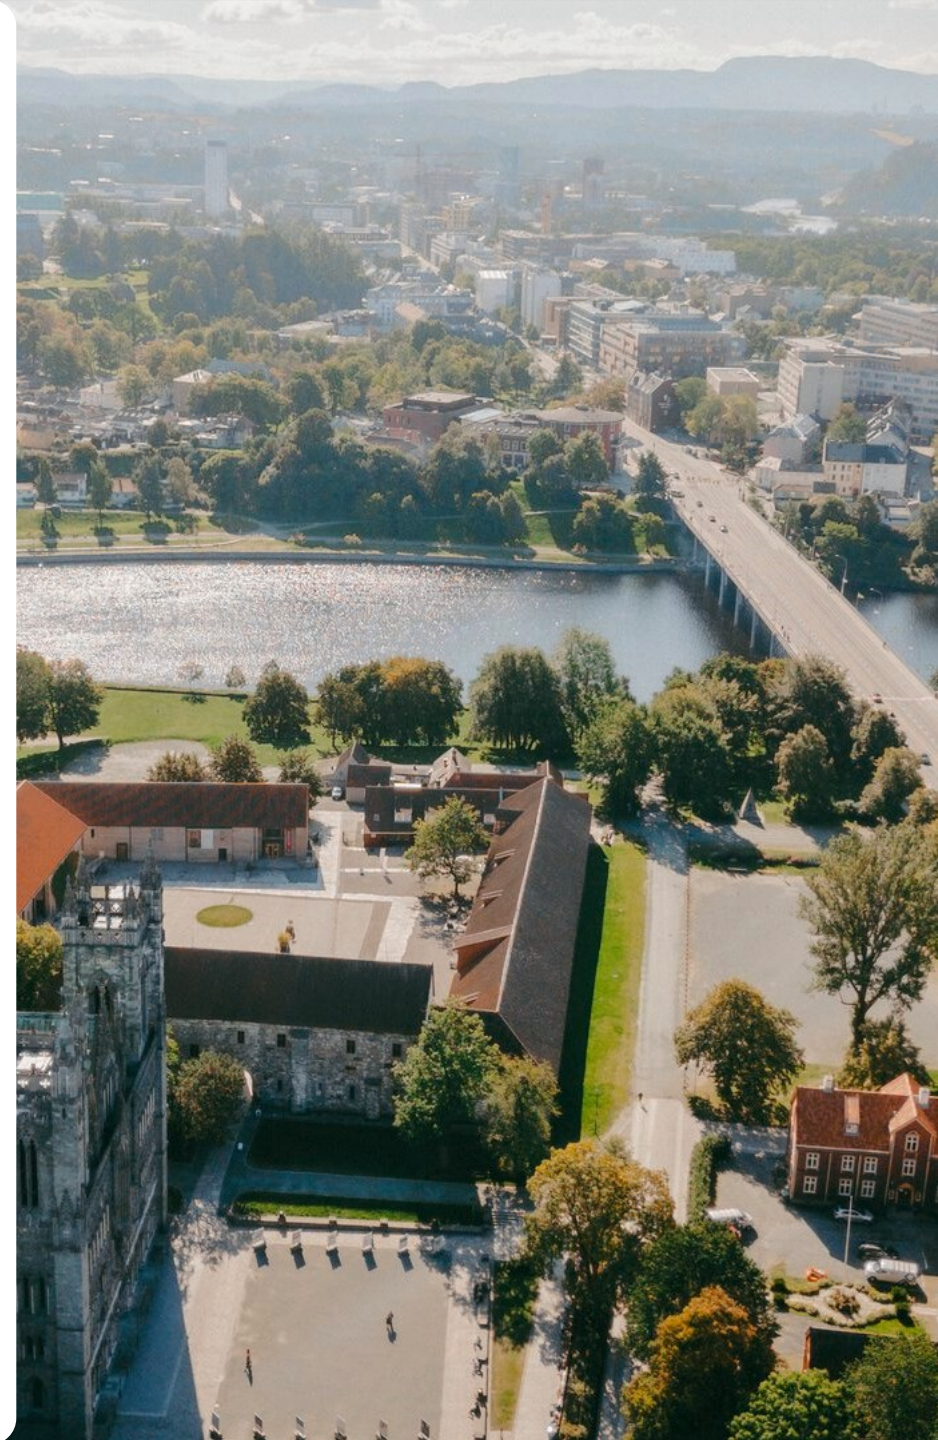

**Anna Barnwell, Manager Building and household sector**  
01.04.2025

# Agenda

## 6th Plenary Meeting CAEED – BERLIN Info session – National Fund and Financing (art. 30)

- Norwegian experience in financing energy efficiency measures through the Climate and Energy Fund
- Principles for Enova's management of the fund
- Examples of Enovas measures and results

# About Enova

- Owned by the Ministry of Climate and the Environment, also serves the Ministry of Energy
- In 2024 Enova supported projects with 11 971 MNOK or 1 billion Euro
- 120 employees all located in Trondheim, Norway

Lasting viable  
market change

# A policy scheme that works

Political goals

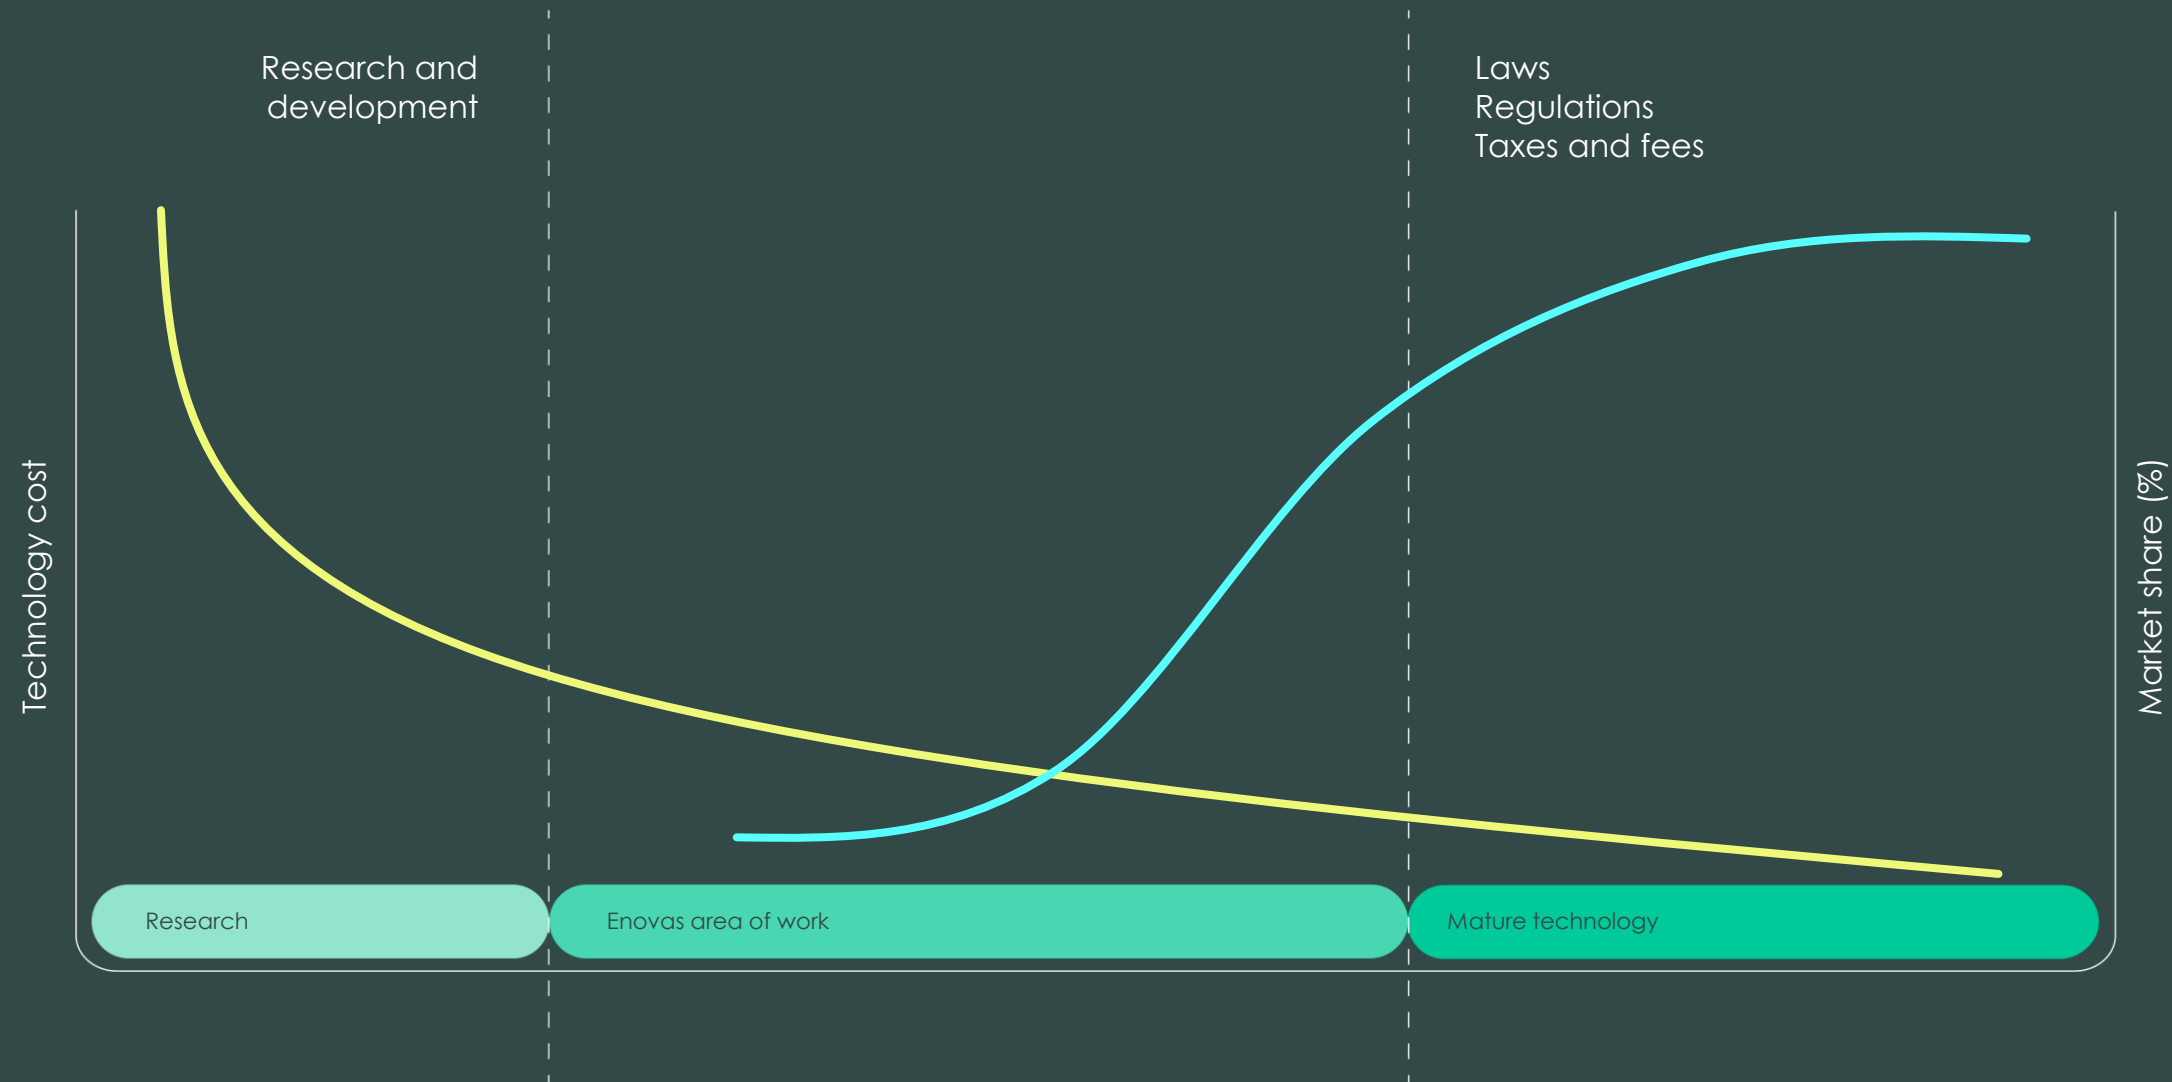

Changes in the market

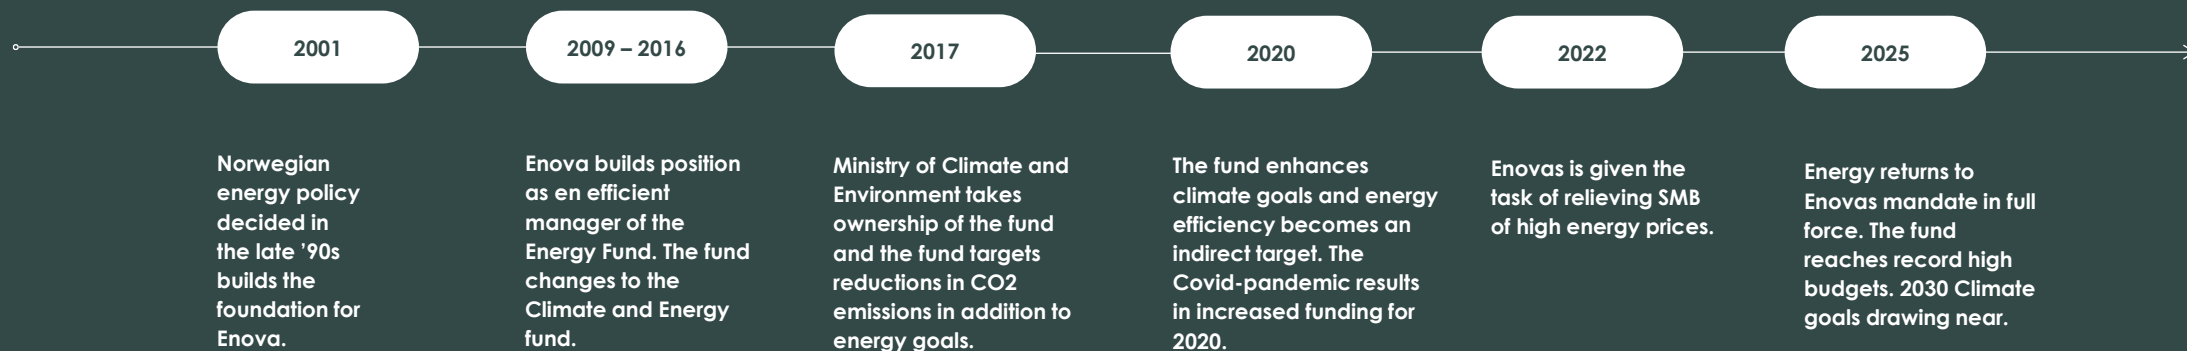

# Teknology development

# Market development

# The history of Enova

# An efficient energy system is necessary to meet climate goals

# Enova supports energy efficiency projects in several sectors

Industry

Buildings

Multi-family  
housing

Households

# Enovas Policy Measures

- Information
- Labeling
- Support for feasibility studies and energy mapping
- Training and financial support for energy management
- Support for piloting new technologies / contract types
- Support for energy efficiency projects

# What are the goals of the policy measures?

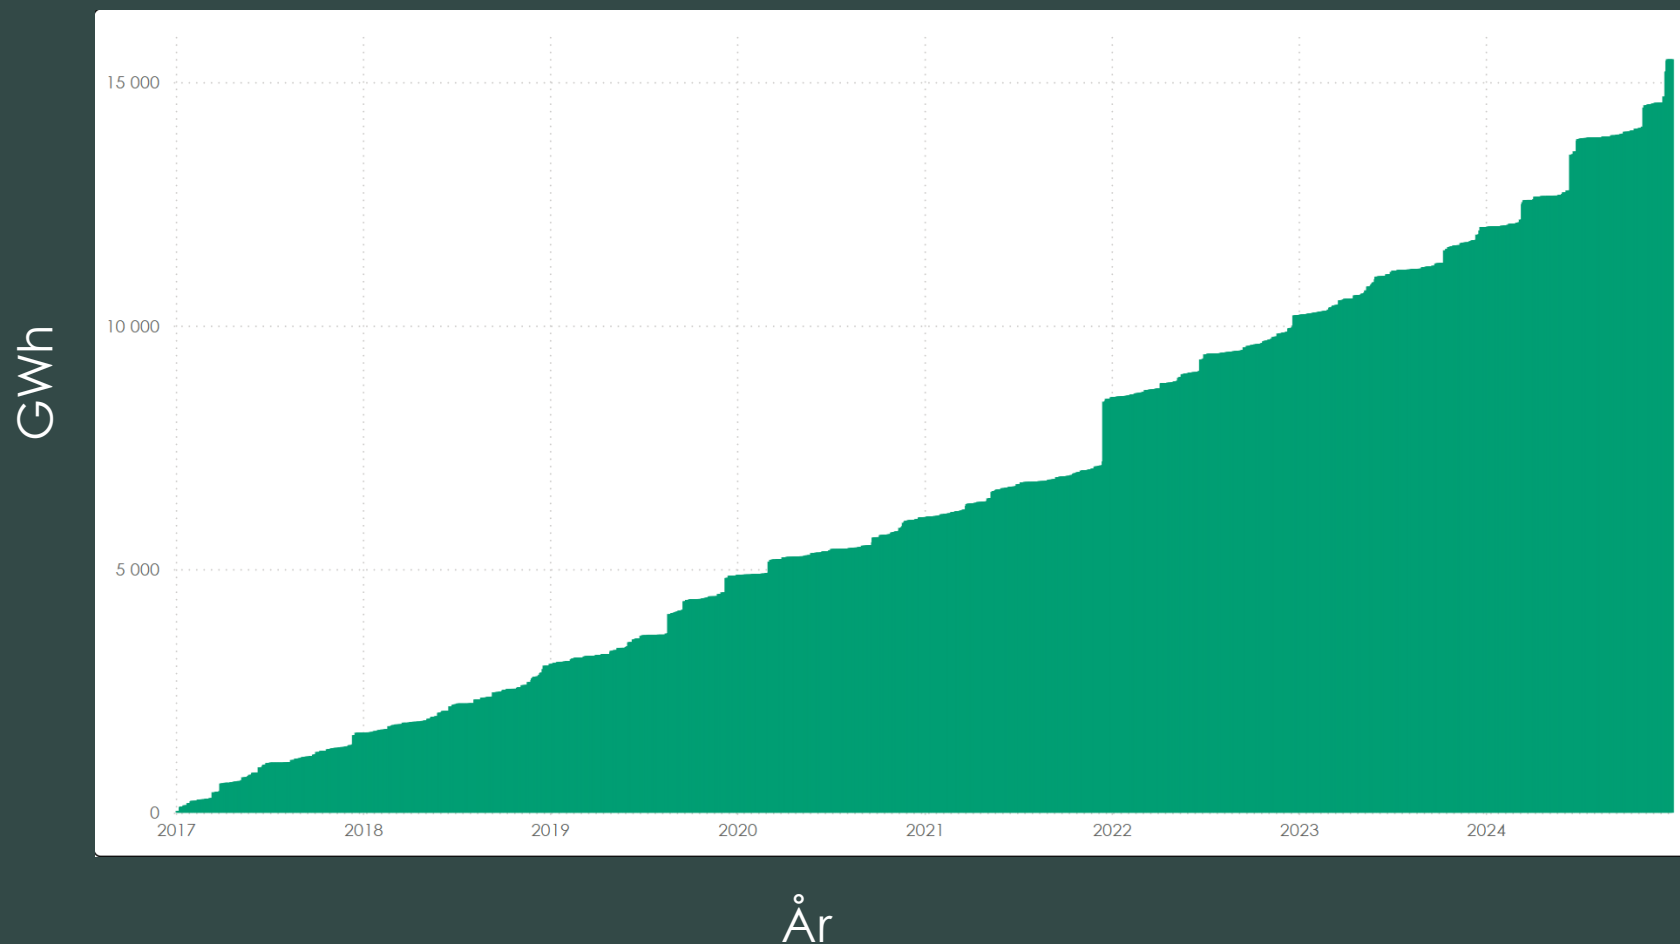

- Introduction of technologies on the market so that they will in the long term compete with less efficient solutions.
- Increase consumer competence so that energy efficiency measures are invested in.
- Energy efficiency at large.

# Since 2017

Sector	Funding (NOK)	Number of projects	Energy results (GWh)
Industry	8.677.000.000	1.352	6.002
Energy systems	7.024.000.000	1.578	2.608
Transport	13.422.000.000	14.515	5.343
Commerce	4.318.000.000	89.054	844
Households	2.266.000.000	148.895	619

# Accumulated energy results (GWh) from 2017-2024

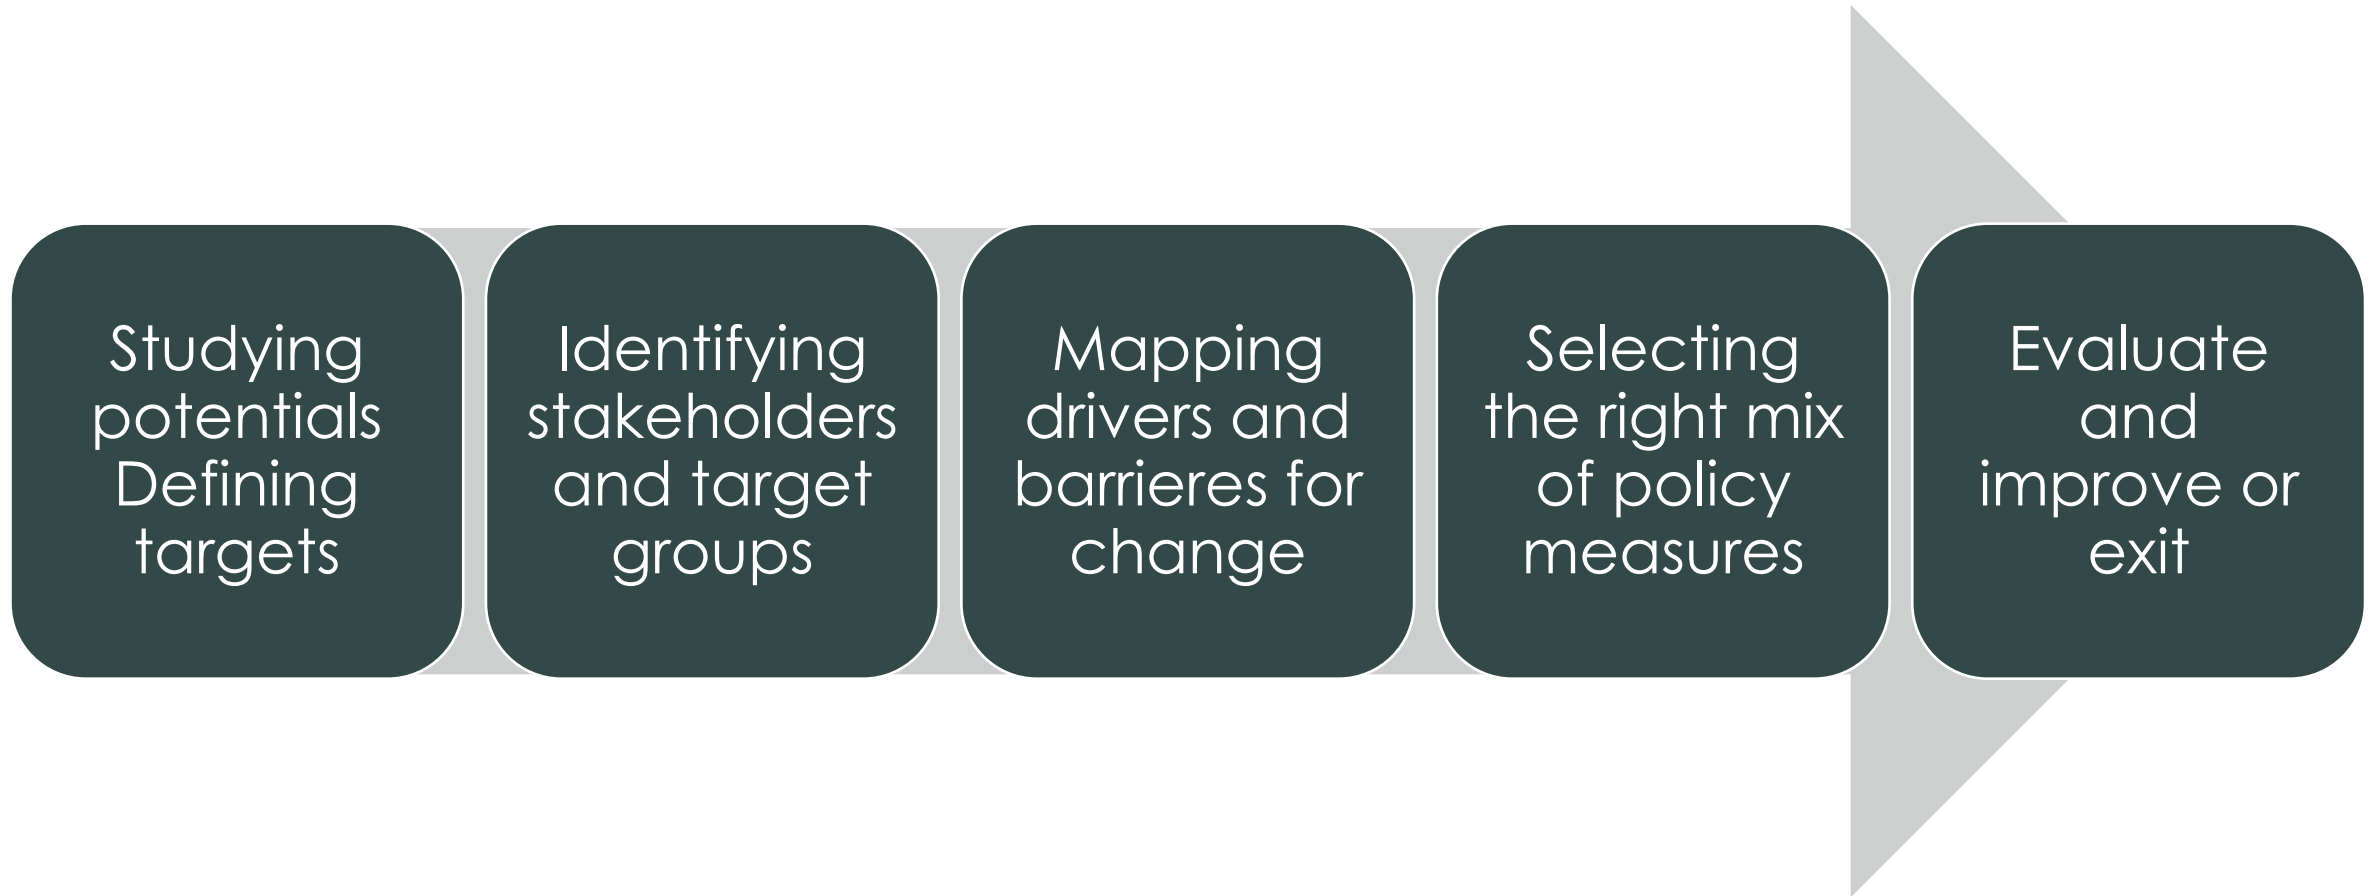

# Interaction with other policy instruments is important to achieve lasting changes

# How does Enova develop grant programs?

# Thank you!
