

Info session 10.5 description

Title

New resources for the implementation of Article 7 EED: discussing lessons learnt about savings calculations and M&V

Session description

This session will discuss lessons learnt about savings calculations and monitoring & verification, in the context of Article 7 EED, and with the aim to highlight existing challenges and possible solutions for reaping energy savings potentials.

An introduction will summarize key lessons from the H2020 projects [streamSAVE](#) (dealing with energy savings calculations) and [ENSMOV](#) (dealing with policy implementation, monitoring and verification). This will be illustrated with concrete examples about action types with untapped potentials, or the so-called *Priority Actions*.

An interactive part will follow to facilitate experience sharing between participants and also to conduct a reality-check of the experiences and findings gathered by streamSAVE and ENSMOV.

A final discussion will explore issues that may be encountered with a new selection of action types under analysis by the streamSAVE project, as well as by enabling success factors to reach new potentials with Article 7 policy measures

Draft agenda

Duration	Title / contents	Speaker / moderator
(5 minutes)	Welcome and introduction of the H2020 session	Ulrike Nuscheler and Martin Eibl (CINEA)
(10 minutes)	Overview of lessons learnt from streamSAVE about implementing energy savings calculations & related EU-wide indicative values in multiple countries	Nele Renders (VITO) and Christos Tourkolias (CRES)
(10 minutes)	Lessons learnt about M&V practices from ENSMOV	Vlasis Oikonomou (IEECP)
(20 minutes)	Small group discussions about issues encountered with energy savings calculations and M&V	Moderated by Nele Renders, Christos Tourkolias, and Vlasis Oikonomou
(5 minutes)	Sharing main points from each group	1 rapporteur per group
(5 minutes)	Introducing the new selection of Priority Actions under analysis in streamSAVE, and the replication activities	Nele Renders
(5 minutes)	Other recent outputs from ENSMOV and upcoming activities	Ivana Rogulj (IEECP)
(15 minutes)	Small group discussions about enabling and success factors to reach new savings potentials with Article 7 policy measures	Moderated by Nele Renders, Christos Tourkolias, and Vlasis Oikonomou
(5 minutes)	Wrap-up	Ulrike Nuscheler and Martin Eibl
